

Case Management: Where Compassion Meets Efficiency

Revolutionize Service Delivery. Amplify Impact.

PlanStreet case management software is designed to execute case management life cycles and make life easier, more efficient, and more productive for case workers. By providing an intuitive and comprehensive platform, PlanStreet ensures human and social services professionals can efficiently manage cases, collaborate seamlessly, and access vital information securely.

Why Choose PlanStreet?

Automate Processes and Workflows

Seamlessly automate workflows, alleviating stress by streamlining processes and enhancing overall efficiency.

Configurable and Scalable

Our software solution is crafted for scalability, catering to the growth and evolving needs of both your team and organization.

Mobile App for On-the-Go Efficiency

Our mobile app allows you to assist clients and work on cases anytime, anywhere.

Keep Client Information Secure

We keep confidential files secure on our HIPAA compliant software.

clients while maintaining
privacy and confidentiality.

A central illustration of a man with green hair, wearing a white shirt and tie, sitting in a meditative lotus position with his eyes closed and hands in a mudra. He is surrounded by various business and productivity icons: a calendar, a clock, a target with an arrow, a gear, a bar chart, a line graph, a cloud, a lightbulb, a magnifying glass, a checklist, a 24:00 timer, a sand hourglass, and a small gear. The background is white with a green vertical line on the left and a green circle with the number '05' at the top left.

- Scheduling: set appointments and sync them easily with our email integration.
- Collaboration: rapid communication through messaging and comment features.
- Disburse payments and manage client requests
- Measure Outcomes: track treatment plans and assessments.
