

Patient Case Management Software

**PlanStreet's
HIPAA-compliant
patient case management
software can accelerate
care management and
patient wellbeing and
enhance your performance.**

PlanStreet is uniquely positioned to help the Medicaid waiver provider agencies deliver efficient case management services to Children's Home and Community-Based Services (CHCBS) and In-Home Support Services (IHSS) to address their complex billing needs.

By streamlining and automating laborious paperwork and functions, PlanStreet spares your organization valuable time to spend on your most valuable asset: your clients.

Our feature rich and configurable case management solution that allows you to:

Take advantage of the simplified, automated intake process

Manage patients as they move between care settings

Use patient-centered assessments to determine care needs

Develop personalized, patient-centered care plans

Protect patients' personal health information

Perform patient monitoring to track care goals

Benefit from configurable reports and dashboards

Enjoy smooth payments & claims processing

Your **behavioral health** case management partner!

Our matchless behavioral health solution provides power, flexibility, and ease of use to behavioral health professionals. Sign up today to make errors, delays, and inefficiency a thing of the past.

No more scouring codes and treatment information

Automate your medical claims and billing with our state-of-the-art billing solution. Claim Scrubbing feature ensures that your process does not falter due to minimal mistakes. The correct ICD 10, HCPCS & CPT codes can be predefined saving you the hassle of scouring the relevant code.
